◆
25 TH EDITION

www.ARCHIDEX.com.my

Jointly Organised by:

The Stage that Shapes Architecture.

ARCHIDEX, an event of Kuala Lumpur Architecture Festival, is Asia's Leading Architecture Business Event.

This magnetic stage is where architects, developers, interior designers and allied industry professionals, converge, collaborate and celebrate the future of the built environment.

Every hall, every dialogue and every highlight is designed to spark progress – where strategies are set, partnerships are forged and market influence is won.

This 25th Edition marks
The Bold Future, where
ARCHIDEX defines the business of
architecture, builds influence, and
unites leaders shaping the built
environment of tomorrow.

Growth begins where the
right people converge.

Unmatched Reach

Engage with a curated audience of architects, specifiers, developers, and decision-makers who drive projects across the region.

Regional & Global Influence

Positioned within the Kuala Lumpur Architecture Festival, ARCHIDEX connects you to Asia and beyond.

Business & Networking Hub

Forge strategic partnerships, unlock opportunities, and accelerate business growth.

Prestige & Authority

Elevate your brand alongside the region's most respected names in architecture and design.

2025 Visitors at KLCC

36,800+

40,000 Visitors

3 New Thematic Floors

Showcasing innovation, lifestyle and
design excellence.

Activate the future of
architecture with
expanded halls and new
thematic floors.

Every floor is designed to connect, create, and drive architectural breakthroughs.

Engage Buyers

Connect with key decision makers through structured **buyer programmes** and **business networking sessions**.

Knowledge Exchange

Participate in **forums, talks and panel discussions** to share insights, trends and best practices.

Collaborative Opportunities

Elevate your brand through **curated booths** and sculptural, design-driven installations that showcase your products, materials, and solutions in an immersive, unforgettable experience.

Co-Located Exhibition:

FENESTEX

ASEAN FENESTRATION & TECHNOLOGY EXHIBITION

@ Hall 2

A Vertical Platform for a Growing Market.

Now in its 2nd edition, FENESTEX spotlights ASEAN's booming fenestration sector — windows, doors, glass, and façades — a market driven by energy-efficient, smart, and sustainable solutions.

Thematic installations and dynamic forums bring the industry to life, creating immersive spaces to showcase innovations, spark ideas, and connect directly with key decision-makers.

“**Jeffrey Chong, Managing Director, Chiefway Optronics (Malaysia) Sdn Bhd**
ARCHIDEX is the right platform to showcase our products – interior designers, architects, contractors, renovation and building consultants for Green Index Buildings and property developers. That's why, it's the only trade show we participate in.

”

“**Jerry Wong, Sales Director, Meidoor Systems Malaysia**
As first-timers at ARCHIDEX, we made the decision to bite the bullet and participate after many of our current business partners recommended it. They sold it as a solid platform to network and for us to introduce our revolutionary products to interior designers and more. Even though it's only the second day, the reception has been fantastic, and we've made many connections keen to work with us.

”

“**Raymond Loh, Director, Façade Resources Sdn Bhd**
ARCHIDEX is the biggest exhibition in Malaysia, which is why we chose to be here. It's a great platform that brings the entire industry under one roof to explore new markets and showcase the latest products and technology.

”

“**Melissa Sin, Executive Director, SKB Shutters Corporation Bhd**
Through ARCHIDEX, we've been connecting with potential collaborators, end users, suppliers, and manufacturers. We've exhibited here for over 15 years now—and have formed multiple partnerships that started at ARCHIDEX. Even in our new factory, we use many products from neighbours we first met here.

”

LIFE

TEAM

IMPACT

@ Hall 6

The Future Workplace Packed with Possibilities.

WoW spotlights the workplace sector — one of the industry's largest markets. An ASEAN's first workplace-themed exhibit, WoW puts a fully functional office in action, answering the demand for innovation and igniting real-time conversations on the future of how we live, work and play.

“ **Pey Yi**

Quantity Surveyor, Unispace Singapore PTE LTD, Singapore

WoW is a well-curated exhibition with a strong collaborative spirit, showcasing genuine partnerships and how products are holistically used rather than seen as separate pieces.

”

NEW

The New Era of Hospitality. @ Hall 9

Hotels are destinations. They define journeys, embody cultures, and deliver experiences that shape memories. The hospitality industry is in the midst of reinvention—driven by ***sustainability, technology, and the rising expectations of global travelers.***

This new zone at ARCHIDEX is a bold platform created to showcase the future of hospitality design in an immersive journey where innovation comes alive.

NEW

DIGITAL ARCHIDEX @ Hall 3

The Digital Frontier of Architecture.

Technology is no longer an accessory—it is the backbone of architecture. From BIM and AI-driven design to digital twin technology and smart project delivery, digitalisation is transforming how spaces are imagined, designed, and built.

Malaysia is fast-tracking digital construction under the NCP 2030 and MyDIGITAL Blueprint, making BIM, IBS, and digital solutions cornerstones of future projects.

This zone is your curated hub to showcase solutions that boost efficiency, drive sustainability, and unlock creativity.

ASEAN governments
mandating BIM adoption
in major projects.

VISITOR'S PERSPECTIVES

“

H.E. Jose Luis Pardo Cuervo, Ambassador of Spain to Malaysia, Embassy of Spain

I come every year because of the quality of the exhibition and the strong Spanish presence, mainly Roca, which has a strong footprint in Malaysia. ARCHIDEX is an important platform for our brand. Roca is synonymous with high quality and a renowned Spanish name in Malaysia. This exhibition is a true international window into all our markets, it's well organised and very well-known in Malaysia.

”

“

A r. Eduardo S. Casares, Creative Solutions and Innovations, Philippines

I've been coming to ARCHIDEX for the past 16 years, and it is always well organised. Over the years, Malaysian brands have become more innovative in design and technology. Every year I see something new and exciting. Since I started coming here, I've brought a few Malaysian products into the Philippines. This time I saw 2-3 potentials.

”

“

Shinto Mathew, ID, U&S Fifthwall Design LLP, India

The design concepts showcased this year are far more advanced than last year. The quality of workmanship in Malaysia surpasses what we typically see in India. We're here to explore partnerships and source innovative products not readily available in our market.

”

“

A r. Qamariah Abdul Shukor, Architect, Jabatan Kerja Raya (JKR), Malaysia

"ARCHIDEX is a great resource for product materials, especially with up-to-date and green options. It makes sourcing easier, and I always attend to keep myself updated on current industry trends.

”

“

Er. S. M adhukar Shiva, Director s- Project Consultant, SES Engineering

I came from India via the Maldives to see how your architects are working. Many products here suit Maldives projects. I'm also here for networking. It's an amazing experience; I've been to many similar exhibitions, but I appreciate this one most because it combines many products under one umbrella, giving access to more ranges in one go. Having travelled to Big 5 [Dubai] and BAU [Munich], I feel ARCHIDEX compares well with BAU. This will be an amazing reference for the global specifier community.

”

“

Wu Kuan Herng, Vice President, Genting Property Sdn Bhd

We've been attending ARCHIDEX for the past five to six years. We come to observe the trends in building materials since we deal with them daily, and here, we get to see everyone at one go. For the past few years, some materials used in our projects have come from connections formed at ARCHIDEX, making this a very useful space for networking.

”

EXHIBITOR'S REFLECTIONS

“

**Julia Ng, Country Manager, Malaysia-Hong Kong-Brunei,
Hettich Southeast Asia Pte Ltd**

We know ARCHIDEX is one of the leading platforms for the industry to get the latest information, trends, and networking—it all happens here. We generate leads from many countries and showcase our products internationally, all on a single platform. It's incredibly beneficial for us. Plus, the audience is diverse.

”

“

William Wong, Sales Director, truSafe Smart Security Sdn Bhd

This is our fourth year at ARCHIDEX, but our first as the master distributor of Moorgen smart home systems. Architects and designers are very receptive, making it an ideal platform to showcase our systems and let them experience them firsthand.

”

“

A Isyira Radzi, Business Development Manager, Topmix Products

We have been attending ARCHIDEX since 2017, and this year we expanded our booth from four to fifteen. We connect with industry participants from across the region, and ARCHIDEX 2025 has given us access to even more potential customers.

”

“

Dave, Director, Solid Greentech Solutions

We invest time, money and effort in ARCHIDEX because it stands out from the rest. It's not just about exhibiting, but also about recognising companies like ours that strive to make a difference in the industry. Winning the Star Awards make us feel great, and gives us extra confidence to push forward, as it helps more architects to get to know us. The credibility is significant, especially since they are certified by PAM.

”

“

**Dr Chee Chuang Yee, Technical Director,
Bacteria Free Water Engineering Sdn. Bhd.**

ARCHIDEX has provided the perfect platform to showcase our products and our company. Winning the Star Awards is really exciting. It recognises our commitment to sustainability and environmental sustainability and helps raise awareness of our rainwater system, so everyone can play a part in saving the environment.

”

“

Ketan Gandhi, Business Development Manager, Abstar Sdn Bhd

Overall, ARCHIDEX has given us strong brand exposure and valuable leads. Our key selling point is that both our products and installation methods are eco-friendly. One of our major clients Petronas, discovered us through ARCHIDEX, proving it to be an excellent platform for boosting visibility and strengthening our brand.
